(209) 535-1723 - huntercbaldwin98@gmail.com - [linkedin.co/in/hunterbaldwin](https://www.linkedin.co/in/hunterbaldwin) - github.com/hbaldwin98

EDUCATION

California State University, Stanislaus
Bachelor of Science in Computer Science - 3.81GPA

May 2018 - May 2021

EXPERIENCE

Konexus, Inc.
Full-Stack Engineer
Eagle, ID (Remote)

June 2022 - Present

- Lead out implementation of a self-service client usage microservice backed by Elasticsearch
- Improved user geospatial query lookups by over 300% for critical emergency weather alerting
- Improved user SQL querying performance by over 50% for critical and non-critical alerting
- Spearheaded user management RESTful APIs to provide integrations between Konexus and third-party partners
- Refactored legacy .NET web pages into a modern Angular web application
- Instrumental in refactoring legacy weather alerting systems into a module-based integration system

PROJECTS

Real-Time Peer-to-Peer Web Conferencing Application

Technologies: Angular, WebSockets, WebRTC, Node.js

- Personal project to learn about real-time communications using WebSockets and WebRTC
- Lobby based. Supports minimal voice capabilities and screen sharing.

Textly - AI Chatbot and Writing Application

Technologies: Svelte, Pocketbase, Go, Docker

- Writing tool and database with AI support for providing suggestions, improvements, as well as general discussion
- Implementing a full AI chatbot with persistence. Uses a server-provided API key; full chat history and context.
- Persisted documents and folder-tree structure for hierarchical organization for writing.

TECHNICAL SKILLS

Programming Languages: JavaScript, C#, TypeScript, Go

Frameworks and Tools: Angular, Svelte, Node.js, SQL Server, .NET, ASP.NET

Concepts: Microservices Architecture, RESTful APIs, Agile, Databases
